

Better not mess with this. I had been harrassed by phone calls from people I don't do business with, don't want to do business with, never will do business iwht. Their automated callers, and rude sales personnel, made me crazy. I was safe in my own home from their calls. I signed for both Federal & NJ Do NOT CALL lists AS SOON AS THEY WERE AVAILABLE. Now my time at home is peaceful. I am content. Also, if they get lists of my cell phone number, it will start all over again. I put it on both lists when I signed up. DONT ALLOW DIRECTORIES OF CELL PHONE NUMBERS. I PAY FOR A SERVICE, Cell company is not giving me anything. They CANNOT list my number. I sould not have to "opt out" of anything. There is no directory in existence now, why do they want to use my personal private information to make another buck for their company at my expense? I don't want my cell, home, business, numbers freely floating around. I have t pay to get "unlisting". Will they pay me to use my number in the directories? ? ? ??
